

PACKERS TO SUBMIT REGULATORY MEASURE

Armour Informs Congressional Committee That Legislation Is Being Drafted for Consideration.

MORRIS JOINS OPPOSITION

Another Company Head Appears to Condemn Pending Proposal—Prepares Long Statement.

WASHINGTON, Jan. 27.—J. Ogden Armour, president of Armour & Co., told the senate agriculture committee tonight at the conclusion of his testimony that he and his company were drafting legislation for the regulation of the meat packing industry which he expected to submit as a substitute for similar bills now before congress.

Before being presented, the legislation will be submitted to the other packing firms and the independent packers for their approval. Mr. Armour said he added that he believed the plan which he had in mind would satisfy both the producers and the consumers and remove "antagonism" between the packers, which he admitted seemed to be general.

Mr. Armour reiterated that his opposition to control by the government of the railroads of refrigeration and livestock cars and stock cars was predicated solely on his fear that they could not be operated as efficiently as they now are. He said he believed private ownership of branch houses was absolutely necessary, but declared government operation of branch houses for the small packers would not be opposed by the large companies.

While Mr. Armour was finishing his testimony Edward S. Morris of Chicago, president of Morris & Co., appeared before the house interstate commerce committee in opposition to the pending legislation, which he declared would imperil the industry and prove costly to the consumer.

Morris had a prepared statement of 124 pages, but at the suggestion of the committee, he read only part of it. The entire statement, however, was admitted to the record of the hearing.

Morris told the committee he had no objection to government ownership of the meat industry provided his company was reimbursed immediately for its property and investments. He said he would object, however, if payment was postponed as the industry would soon be in such a chaotic condition that a proper settlement would be impossible.

"Unless congress wants to have another industry in the situation where the railroads are now," the witness said, "it should leave the meat industry alone. Government regulation might cause the ultimate ruin of the industry as well as resulting in a great increase in the cost of living."

CANADIANS DEMANDING JOBS AND FOREIGNERS' EJECTION

WINNIPEG, Manitoba, Jan. 27.—This afternoon a considerable mob of soldiers marched to the plant of Swift & Co. with the avowed intention of ejecting every man there connected with being German or Austrian.

When the returned soldiers arrived at the plant, Mayor Gray and Brigadier General Ketchen, commanding officer of this military district, were there before them. General Ketchen and W. H. Ingram, manager of the Swift & Co. plant, met the soldiers at the entrance. General Ketchen asked the veterans to give the employers a chance to adjust themselves to changed conditions.

Ingram told the soldiers he would demand the "foreigners" employed at the plant to be necessary to make post jobs for returned soldiers.

The veterans agreed to give the objectionable workers three days to remove the objectionable workers.

The veterans plan, according to an announcement, to visit such large business in the city and determine the stand the owners or managers intend to take with regard to employing returned soldiers.

JAPAN'S ENVOYS INDORSE STAND TAKEN BY UCHIDA

PARIS, Sunday, Jan. 26.—The Japanese delegation will, in its attitude on questions coming before the peace conference, be inspired by sentiments expressed by Viscount Uchida, the Japanese foreign minister, on the opening of the Diet at Tokyo. Japan's senior delegate, Baron Makino, said to the Associated Press today. The Japanese will first of all insist in every way possible to the conclusion of a just and permanent peace and neither expect nor desire any territorial expansion in China or Siberia, he said.

Asked as to the disposition of Tientsin, Baron Makino again referred to the foreign minister's address in which he said Viscount Uchida left no room for doubt as to where Japan stands when he said that if the peace conference Japan was given the right freely to the issue of Tientsin, she will hand it back to China under the terms of the notes exchanged between China and Japan in May, 1915.

MANIC IN PHILADELPHIA RUNS AMUCK AND KILLS 3

PHILADELPHIA, Jan. 27.—Running amuck with a loaded revolver in each hand, a maniac used through the streets of the central section of the city today shooting in every direction a yelling throng followed him. In the fighting two police men and a pursuing chauffeur were killed and five others were wounded. As he ran the maniac shouted: "Come, you American cowards. I'll show you how to fight!"

LATE PATENTS ISSUED TO OKLAHOMA PEOPLE

World's Washington Bureau, Jan. 27.—The following patents have recently been granted to Oklahomans, the patent office announced: Patent J. Paul Hugo, peanut digger; John T. Badcliffe, Kilmorby, reducing seal for automobiles.

Smart Scarf Set of Mauve Velvet

(By ELOISE)

Since skating has come to be one of the most popular of the winter sports one finds the most charming apparel designed especially for it. Among the newest accessories which the outdoor girls are adopting are the smart scarf and hat sets.

One rarely sees furs worn by skaters unless perhaps short jackets or trimmings of short-haired furs are introduced. Instead the knitted scarf sets are used and more recent are the velvet or velour sets with brilliant borders of flowers of conventional designs.

SMALL NATIONS ARE PACIFIED

CONTINUED FROM PAGE ONE

Small subjects and the question of private and maritime laws. While the official communiqué gave no indication of the nature of the question of maritime laws, it would seem to be a term embracing President Wilson's second point of freedom of the seas.

The council also proceeded to hearings on the disposition of the conquered colonies in the Pacific and the Far East, a final conclusion not being reached. The conference is giving evidence of real progress since the committees were named and most of these bodies began to initiate their work today.

League Members Meet. President Wilson, who is chairman of the committee on the league of nations, joined his colleagues, Colonel House, also a member of that committee, during the noon recess. Later in the day Lord Robert Cecil, British member of the committee, joined him in a further consideration of questions which the president and Colonel House had examined.

The labor commission also began to get under way. President Wilson met Samuel Thompson, president of the American Federation of Labor, James Duggan, John R. Alpins and other members of the American labor delegation and later Mr. Gompers and Edward N. Hurley, who are the American members of the labor commission, held their first conference.

The military commission on demobilization also met, while M. Pichon completed the draft of instructions for the commission which leave for Poland in a few days.

White Meets Colleagues. Henry White, the American delegate on the waterways commission, also established relations with his colleagues.

Thus real progress on all the main subjects is becoming apparent as the commissions are beginning to formulate detailed projects for presentation to the conference.

France and Great Britain, it is declared, are agreed upon at least one feature of the question of colonies which is that under no consideration shall the colonies revert to Germany. The reasons advanced for such a decision are various, but prominently among them is that it would render it impossible for Germany to establish submarine bases in her colonial possessions. The American attitude is as yet unraveled.

A prominent official declared to the Associated Press today that should the Franco-British viewpoint prevail, the German Kenerum would be taken over by the French, in accordance with an agreement reached by Great Britain and France. Belgium lays claim to that part of the Congo which she conquered by force of arms, the Belgian troops having captured Tabora and the territory lying beyond the western slopes of Lake Victoria Nyanza. The Belgians also desire a strip of territory along the bank of the Congo, the delimitation, of course, to be settled amicably with Portugal, territorial compensation being given the latter.

Payment of Claims Asked. WASHINGTON, Jan. 27.—Immediate appropriation of \$11,500,000 to pay \$142 claims of persons in New Jersey for losses of private property resulting from the explosion of the T. A. Gillespie plant last October, was asked of congress today by the war department's special board in investigating those damage claims.

More Food For Vienna. VIENNA, Saturday, Jan. 25.—A second trainload of foodstuffs from the British army in Italy left Vienna today and is expected to reach here on Wednesday next. Plans for distributing the first trainload which arrived recently have been completed and the work has already begun.

ROYALISTS GAINING GROUND IN PORTUGAL

Two Provinces Reported In Complete Control of Monarchist Party—Republicans Denying Charge.

PARIS, Jan. 26.—Portugal Royalists are completely in control of the provinces of Minho and Tras os Montes, according to a wireless dispatch from Madrid to the Journal Des Debats. Advertisers to the same newspaper say that it is reported the republican troops, which were defeated by the monarchists at Coimbra, are about to go over to the cause of the monarchists.

The provinces of Minho and Tras os Montes are in northern Portugal. They have been the center of monarchist operations recently and it was reported from Vigo Saturday that former King Manuel of Portugal had landed in Minho.

The government is assembling large bodies of troops to put down the royalist rebellion at Oporto, says an official statement issued today in which the republican victory over the rebellious Lisbon troops at Monsanto hill, near the capital, is described. The statement says: "A certain number of units belonging to the Lisbon garrison declared in favor of the Oporto royalist rebels on January 23. They left their barracks and took up positions in the mountains of Monsanto above Lisbon. Their forces were composed of one regiment of cavalry and three batteries of field artillery."

The government immediately ordered faithful troops to surround the position and opened lists for the enrollment of civilian battalions under the command of army officers.

**WELSH PREACHER TALKS
TONIGHT AT HIGH SCHOOL**

Arthur Wallis Evans, the great Welsh preacher, will speak in Tulsa tonight at the high school auditorium, under the auspices of the community league.

Evans comes with the highest type of advance notice. He has a wide reputation as a man of strong convictions and forceful delivery. In his lecture tonight he will talk on the relationship between the United States and England. No subject could appeal more to the public mind than this subject, particularly at this time.

Wilson to Visit Brussels.

BRUSSELS, Friday, Jan. 24.—President Wilson intends to accept the invitation of King Albert to visit Brussels. It is said in well informed circles, but has not fixed the date for his trip because of the press of business at Paris.

Tulsa School Boy Has Defect of Eyes Which Is New to Specialists

The most remarkable defect that has been discovered by the school nurse, Miss Oederick, is that of tiny Williams, age 7, who is in the second grade in one of the ward schools.

This boy attracted the attention of the teacher because he held his book very close to his face and when the case was reported to the school nurse she took the child to an eye specialist. While on outward appearance the eye was normal, an investigation proved that the crystalline lens was pulled away from the muscles and is held in an upstanding, oblong position on the temporal side. Consequently the child only gets light from one angle. Several specialists have looked at the child's eyes and they all say this is the first case of the kind they have ever known. Whether anything can be done for the child is not known, as I all depends upon the ability of some one to make a suitable glass.

Much attention is being paid to the children in the public schools as to their physical condition, particularly the state of their eyes and throat. The public schools have a staff of nurses who look carefully into the case of any child who shows any sign of an irregularity. Teachers keep a careful watch on the students and any peculiarity is immediately reported to the nurse and medical attention is given where needed.

**NEW CITY HALL WILL BE
OCCUPIED IN A FEW DAYS**

The chamber of commerce is making arrangements to move into the new city hall that is almost completed. New furniture and equipment will be installed in the new quarters of the chamber of commerce and arrangements have been made to turn over all the desks and chairs now being used to the newspaper men. A separate department will be reserved and all necessary accommodations for the reporters made.

According to Mayor Hubbard, the city officials also expect to be settled in their new home in the new municipal building at the corner of Fourth and Cincinnati streets by the first of next month. The entire force at the city hall is looking forward to the day which they believe is near at hand. The delay in the work of putting the finishing touches on the new building was caused by the retarded delivery of marble and wall-coating.

The electric wiring has been installed and as soon as the elevators are in working order the move will take place. The city employees expect to be installed in their new quarters and ready for work by the first of the week.

BONE DRY MEASURE IS ROUGHLY HANDLED

Cordell Bill Is Amended to Make Its Provisions More Elastic and May Not Be Called Up Again.

OKLAHOMA CITY, Okla., Jan. 27.—The senate even picked the gristle from the Cordell bone dry bill today. Aside from the fact that the measure has been stripped of arms, legs, head and heart, it is a pretty healthy specimen, and closely resembles the original measure as prepared by Senator Cordell to replace the law by Walter Ferguson, which was decapitated by the criminal court of appeals.

Not much else was done by the senate except to manhandle the Cordell bill. First Senator Leach offered an amendment which proved acceptable and which removed the words "By an ordained priest or clergyman" from the bill, leaving the words: "The provisions of this section shall not apply to altar wine lawfully procured to be used solely for sacramental purposes in divine worship." Senator Leach said he was unwilling to leave it up to the clergy to secure this wine and intimated that the deacons ought to have a chance to get it in.

Next, Senator McIntosh added an amendment, which provides that pure grain alcohol may be brought in for medicinal or scientific purposes. It was freely predicted on the floor that scientists will develop by the thousands overnight in Oklahoma. Next a fight was made on the possession clause but this lost by a vote of 20 to 13. The debate ended when Senator Wallace finally announced that he had "discovered a joker in the bill and moved to reconsider an amendment by Smith of Ottawa, which had to do with the penalty."

No Senator Cordell may or may not call up his bill again tomorrow. There was some doubt tonight as to whether or not he would care to bring it up again in view of its condition.

CUMMINS WOULD REVOKE WILSON'S RAIL POWERS

WASHINGTON, Jan. 27.—Revocation of President Wilson's power to return railroads under government control to their private owners any time within 21 months after peace is declared was proposed in a bill introduced today by Senator Cummins of Iowa, a republican member of the senate interstate commerce committee, which is studying railroad legislation. It was referred to the committee. The measure provides that government control during the 21 months period shall be mandatory unless otherwise ordered by congress. Senator Cummins and many other members of congress oppose return of the carriers without further railroad legislation generally deemed impossible at the present season.

**FIVE SLIGHTLY INJURED
IN EXPLOSIONS OF CARS**

KANSAS CITY, Jan. 27.—Five persons were slightly injured here tonight when street cars were dynamited. Windows were broken.

NUXATED IRON

If you are not strong or well you owe it to yourself to make the following test: Buy one box of NUXATED IRON. Take one dose three times per day for two weeks. You will find your strength returning and your health improving. Many people have made this test and have been convinced of its increased strength, endurance and energy. Nuxated Iron is guaranteed to give you the best of health.

LANDS BUILT BY THE TULSA DAILY WORLD

Stop Itching Skin

There is one safe, dependable treatment that relieves itching torture and skin irritation almost instantly and that cleanses and soothes the skin. Ask any druggist for a 30c or 50c bottle of Zemo and apply it as directed. Soon you will find that irritations, pimples, blackheads, eczema, blotches, ringworm and similar skin troubles will disappear. A little Zemo, the penetrating, satisfying liquid, is all that is needed, for it banishes most skin eruptions, makes the skin soft, smooth and healthy. The E. W. Ross Co., Cleveland, O.
